## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 7-21, 23 and 24 are allowed over the Prior Art of record.
2. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance of independent claim 7 is the inclusion of the method steps in a method of determining the gas pore pressure of a drill cutting sample having the particular steps a) through g), most specifically, step e) of ***adding or subtracting liquid to vary a size of a bubble of gas within the sample*** (emphasis added) in combination with all the other recited method steps to calculate the gas pore pressure. None of the Prior Art read on the instant invention, most particularly, the above method step limitations. The closest Prior Art reference is US 2002/01984896 A1 to Stolper which discloses a method of determining the amount of methane in a core sample by immersing the sample and observing the release of gasses and bubbles and determining their size to characterize a subsurface formation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
